Just because this year's congress is online doesn't mean we shouldn't have an amazing cocktail party together. Come and join us at the "Let The Sunshine In" Party.

After so many dark days it's time to lighten up and "let the sunshine in", let's talk about the things that matter to us, films, theatre, musicals and performance of all sorts.

"Growing stronger together to build a better and more inclusive future" is FIA's aim. We performers like to challenge norms and as trade unionists, we love a good fight. But let's fight our battles with joy using music, dance, performance.

Remember that dinner party scene in HAIR?  
Let's aim to be George Berger at the party and not 'behave', like the guests in tuxedos and nightgowns.  
Let's have some fun.
